

What is Cosmex?

COSMEX is a carpet and hard-surface stain-removal solvent for removing stains caused by adhesive tape marks, cosmetics, glue, lipstick, mascara, nail polish, some types of ink stain and oil stains.

Key Benefits

- ✓ Non-flammable
- ✓ Low-odour
- ✓ Effective on stains

How Does It Work?

COSMEX is an ester-type solvent that dissolves a variety of resin, wax and polymer-based materials

For Use On...

COSMEX is suitable for removing adhesive tape marks, cosmetics, lipstick, mascara, nail polish and some types of ink stains from carpet, fabrics and hard surfaces. It is also useful for tackling bicycle rubber tyre-marks on concrete.

Caution

- COSMEX should not be used on tar-backed tiles because the tar-backing material may be carried onto the carpet fibres.
- As COSMEX is a solvent, it will attack soft plastics and some hard plastics and it should not be used on vinyl or leather surfaces.
- As COSMEX is relatively slow to evaporate, please allow time for the treated area to dry completely before exposing to traffic.

Technical Data

Properties

COLOUR – Transparent liquid
ODOUR – "Fruity" odour
pH = Not applicable

Environmental Care

COSMEX conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. COSMEX is not flammable and readily biodegradable. COSMEX containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

- Absorb liquid spillages and scrape up or vacuum solid soilage before applying spotter.
- Pretest COSMEX on an inconspicuous area to ensure that colours will not run and plastics will not soften.
- Apply neat COSMEX from a cloth directly onto the remaining stain or spot. Gently work the COSMEX into the stain working from the outside towards the centre. Blot the stain with a clean white cloth or paper towel. Results are always best when spillages are cleaned promptly.
- Scrub the area with water and detergent or CARPET SHAMPOO to ensure that all of the COSMEX has been removed.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
