

GRAB

What is GRAB?

GRAB quickly and thoroughly dissolves aerosol paint, felt-tipped pen ink, ballpoint pen ink and other graffiti from stone, fibreglass, concrete and brickwork. It is ideal for use on walls and brickwork, and other surfaces subjected to graffiti. It should not be used on painted surfaces or aluminium metal.

How Does it Work?

GRAB is a very powerful solvent-type paint and ink removal agent. It is water-emulsifiable so it can be rinsed away effectively with water. It is a low odour liquid with outstanding performance, and it is a thickened liquid so it will “cling” to vertical surfaces. GRAB will not leave unwanted chemical odours after being used. It is classified as Dangerous Goods.

BENEFITS	FOR USE ON	NOT FOR USE ON
<ul style="list-style-type: none"> • GRAB quickly and easily removes graffiti from the most difficult of surfaces. • ‘Clings’ to walls. • Pleasant citrus scent. 	<ul style="list-style-type: none"> ✓ Metal ✓ Glass ✓ Fibreglass ✓ Tiles ✓ Stone ✓ Bricks ✓ Concrete 	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Aluminium <input checked="" type="checkbox"/> Painted Surfaces <p>NOTE: Best used on fresh graffiti.</p>

Application

- Graffiti is easiest to remove when it is fresh.
- GRAB is not suitable for use on aluminium or painted surfaces because it will strip the paint. To remove graffiti from painted walls or aluminium surfaces, use Graffiti Wipe Off.
- Metal, Fibreglass, Tiles, Glass
 1. Wear gloves and safety glasses when using this product.
 2. Brush GRAB onto the graffiti. Apply a thick uniform film. Do not apply to aluminium.
 3. Scrub for a minute with a brush to assist penetration. Smooth over then leave to work for 5 minutes.
 4. Scrub the graffiti with a brush or a nylon scourer.
 5. Wipe the graffiti off with a rag or rinse off with a hose.
 6. If any graffiti is left, repeat steps 1 to 4.
 7. Wash over all areas with clean water.
- Concrete or Brick
 1. Use a stiff nylon or wire brush.
 2. Follow steps 1 to 4 above.
 3. Brush over all treated areas then rinse with clean water.
